Since 2013 our Construction Team has processed over **1.2 million hours** for workers we have supplied in the Construction Industry

Since 2013 our Construction Team has supplied over **12,000 different construction projects**

Since 2013 Our Construction Team have successfully filled over **230 Management & Technical Roles** in the Construction Industry

Our Construction team has built up an excellent reputation for sourcing candidates both on a temporary & permanent basis, understanding what our clients need from our many years of experience as a supplier of labour to the construction market. Our clients trust us to place the right people in the right roles which is why we have built long term relationships with our clients and workers, ensuring we can provide longevity of work to our operatives.

98% of clients surveyed said that the candidates they received were "excellent"

99% of workers surveyed said our service was "better" than our competitors

96% of customers surveyed said that they would "definitely" recommend our services to others in the industry

97% of workers surveyed said that their overall experience with Pier Consulting was "very good"

"I have been using Pier Consulting for a number of years. Over this long period I have found them to be very professional and knowledgeable in their field. Pier Consulting have supplied me with many different trades from Forklift drivers to site managers. They supply only tried & tested individuals. I would have no reasons at all not to recommend anyone to use Pier Consulting, whether looking for temporary or permanent staff."
Area Build Manager, National Housebuilder

CONSTRUCTION RELATED TRAINING COURSES

pier resources & training

As the need grows across the industry for health & safety training we have grown to accommodate our clients' needs. We can currently assist in the delivery of over 50 ROSPA approved online courses, CSCS tests, IPAF training, PASMA training and Asbestos Awareness certification. Your contact at Pier can arrange your labour and book the training they require or run courses for your own workers.
